

# TelehealthLink™

<p>Paying too much for healthcare?</p>	 <p>Better Monitoring, Better Decisions</p> <p>Your health is very important to you and hospital visiting is expensive</p>
<p>Want to reduce healthcare cost?</p>	<p>TelehealthLink™ provides remote patient monitoring (RPM) services for healthcare stakeholders - home patients, healthcare providers, insurance companies, employers - anywhere the Internet is available.</p>
<p>Visit hospital less, Pay less, Enjoy more</p>	<p>TelehealthLink™ allows healthcare providers to better manage those with chronic illnesses. It provides daily health parameter monitoring of each patient at their own living environments so even a small change in health status can be observed, trended, and automatically reported. In many cases, TelehealthLink pays itself in less than two years.</p>
<p>Innovations for a healthy future</p>
